

One is a Toy...

the other is a **COMMITMENT**

**Rabbits are not Easter presents.
They are an 8-12 year LIVING commitment.**

- Rabbits are not suitable pets for young children.
- Most rabbits do not like being held and are easily injured if dropped.
- The average lifespan of a rabbit is 8-12 years.
- It is important to spay or neuter a rabbit and provide vet care.
- Rabbits should be housed indoors and provided with a safe exercise space.

For more information on rabbit care, read our Bunny Basics article: <http://www.rabbitnetwork.org/articles/basics.shtml>
